If you have already enrolled in the Forteo® Patient Registry, thank you and please disregard this information.  
You only need to enroll one time.

## Forteo® Patient Registry Pre-Enrollment Form

---

### **What is the purpose of the registry?**

The Forteo Patient Registry is intended to collect more information about the long-term safety of Forteo, including any potential risk of osteosarcoma. Everyone who takes Forteo has been invited to join the registry. Forteo has been studied for over 15 years and signing up for the registry helps us to answer further research questions about the medicine. The registry is being done by RTI International (RTI), a nonprofit research company located in Research Triangle Park, North Carolina. The registry is sponsored by Eli Lilly and Company, the makers of Forteo. You can still get Forteo at a pharmacy of your choice, just as your doctor prescribed, whether or not you decide to sign up.

### **How do I find out more about the registry?**

By sending in this pre-enrollment form, you agree to be contacted by mail or phone to learn more about the registry. Detailed information about the registry, including a consent form and registration form, will be sent to you. Your involvement will take only 3 to 5 minutes. You will also receive \$5 to thank you for your time. Please complete the pre-enrollment form now and mail it today. You only need to send in the pre-enrollment form once, and you will only need to sign up in the registry once. If you get more pre-enrollment forms with your new prescriptions and have already signed up, please discard them.

### **Will my information be confidential?**

The information that you provide on this pre-enrollment form will be used to send you additional details about the registry. RTI will keep your information confidential by not sharing it with anyone outside of the research team.

### **What if I still have more questions?**

If you have any questions about this registry, please call RTI toll-free at 1-866-382-6813 or visit [www.forteoregistry.org](http://www.forteoregistry.org).
